

A bibliography of H.L.K. Whitehouse's publications

This is a version of the bibliography published by J.G. Duckett in *Field Bryology* 120: 30-36 (2018) which includes book reviews as well as the other publications listed there. It was compiled by J.G.D. and C.D. Preston in 2018. Like the published version, it excludes captions to the BBS atlases published in 1992, 1994 and 2014 which are listed in the BBS Cumulative Index. The references are listed in date rather than alphabetical order.

Genetics: thesis

Whitehouse, H.L.K. (1948). *Genetics of ascomycetes*. Ph. D. Dissertation, University of Cambridge.

Genetics: books

Whitehouse, H.L.K. (1952). *Botany from the beginning*. C.A. Watts, London.

Whitehouse, H.L.K. (1965, 1969, 1973). *Towards an understanding of the mechanism of heredity*. (3 editions). Edward Arnold, London.

Whitehouse, H.L.K. (1982). *Genetic recombination: understanding the mechanisms*. John Wiley, Chichester.

Genetics: book chapters, papers etc.

Whitehouse, H.L.K. (1942). Crossing-over in *Neurospora*. *New Phytologist* 41: 23–62.

Whitehouse, H.L.K. (1943). A brief account of the fundamentals of genetics. *School science review* 25: 77–90.

Haldane, J.B.S. & Whitehouse, H.L.K. (1944). Symmetrical and asymmetrical post-reduction in ascomycetes. *Nature* 154: 704.

Whitehouse, Flight Lieutenant H.L.K. & Haldane, J.B.S. (1946). Symmetrical and asymmetrical reduction in ascomycetes. *Journal of Genetics* 47: 208–212.

Whitehouse, H.L.K. (1948). Evolutionary aspects of heterothallism and heterokaryosis. *Transactions of the British Mycological Society* 31: 355–356.

Whitehouse, H.L.K. (1949a). Heterothallism and sex in the fungi. *Biological Reviews* 21: 411–447.

Whitehouse, H.L.K. (1949b). Multiple-allelomorph heterothallism in the fungi. *New Phytologist* 48: 212–244.

Whitehouse, H.L.K. (1950a). Multiple-allelomorph incompatibility of pollen and style in the evolution of the angiosperms. *Annals of Botany* n.s 14: 199–216.

Whitehouse, H.L.K. (1950b). Mapping chromosome centromeres by the analysis of unordered tetrads. *Nature* 165: 893.

Whitehouse, H.L.K. (1951a). A survey of heterothallism in the Ustilaginales. *Transactions of the British Mycological Society* 34: 340–355.

Whitehouse, H.L.K. (1951b). The significance of some sexual phenomena in the fungi. *Indian Phytopathology* 4: 91–105.

Dawson, G.W.P. & Whitehouse, H.L.K. (1952). The use of the term ‘gene’. *Journal of Genetics* 50: 396–398.

[Whitehouse, H.L.K.] (1953). Sexual reproduction in viruses. *British Medical Journal* 1(4820): 1153–1154.

Whitehouse, H.L.K. (1954a). Analysis of unordered tetrads segregating for a lethal or other epistatic factor. *Nature* 174: 463–464.

Whitehouse, H.L.K. (1954b). Incompatibility in fungi, in *Huitième Congrès international de botanique Paris 1954. Rapports et communications parvenu avant le congrès aux sections 9 et 10*, pp. 152–160. Paris.

[Whitehouse, H.L.K.] (1954c). Diversity in development. *British Medical Journal* 1(4852): 35.

[Whitehouse, H.L.K.] (1955). Bacterial genetics. *British Medical Journal* 1(4907): 214.

Whitehouse, H.L.K. (1956). The use of loosely linked genes to estimate chromatid interference by tetrad analysis. *Comptes-rendus des travaux du Laboratoire Carlsberg* 26: 407–422.

Whitehouse, H.L.K. (1957a). Mapping chromosome centromeres from tetratype frequencies. *Journal of Genetics* 55: 348–360.

Whitehouse, H.L.K. (1957b). Use of tetratype frequencies for estimating spindle overlapping at the second division of meiosis in ‘ordered’ tetrads. *Nature* 179: 162–163.

[Whitehouse, H.L.K.] (1957c). Experimental mutations in plants. *British Medical Journal* 2(5051): 988–989.

Whitehouse, H.L.K. (1958a). Use of loosely linked genes to estimate chromatid interference by tetrad analysis. *Nature* 182: 1173–1174.

Whitehouse, H.L.K. (1958b). Patterns of interference between cross-overs in *Neurospora*, in *Proceedings of the X International Congress of Genetics. Volume II: Abstracts*, pp. 312–313. University of Toronto Press, Toronto.

Whitehouse, H.L.K. (1959). Cross- and self-fertilization in plants, in P.R. Bell (ed.), *Darwin’s biological work: some aspects reconsidered*, pp. 207–261. Cambridge University Press, Cambridge.

Whitehouse, H.L.K. (1960a). Origin of angiosperms. *Nature* 188: 957.

Crundwell, A.C. & Whitehouse H.L.K. (2001). A revision of *Bryum bornholmense* Wink. & R. Ruthe *Journal of Bryology* 23: 171–176.

General and Personalia

Whitehouse, H.L.K. (1965). P.J. Bourne, an obituary. *Nature in Cambridgeshire* 8: 58.

Whitehouse, H.L.K. (1993). A tribute to Eustace W. Jones (1909–1992). *Bulletin of the British Bryological Society* 62: 43–44.

Whitehouse, H.L.K. (1994). Fifty years ago. *Darwin College Magazine* March 1994: 57–61.

Whitehouse, H. (1996). Professor Paul W. Richards CBE (1908–1995). *Nature in Cambridgeshire* 38: 69–70.

Stanley, P. E., Argent, G. C. G. & Whitehouse, H.L.K. (1998). A botanical biography of Professor Paul Richards C.B.E. *Journal of Bryology* 20: 323–370.

Book Reviews

Whitehouse, H.L.K. (1947). *Advances in genetics, Volume I*, ed. by M. Demeric (1947). *New Phytologist* 46: 291–293.

Whitehouse, H.L.K. (1948). *The genetics of garden plants*, ed. 3, by M.B. Crane & W.J.C. Lawrence (1947). *New Phytologist* 47: 299–300.

Whitehouse, H.L.K. (1949). *Svalöf 1886–1946: history and present problems*, ed. by A. Akerman, O. Tedin & K. Fröier (1948). *New Phytologist* 48: 282–283.

Whitehouse, H.L.K. (1952). *Advances in genetics, Volume IV*, ed. by M. Demeric (1951). *New Phytologist* 51: 275–277.

Whitehouse, H.L.K. (1953). *Genes and mutations* (Cold Spring Harbor Symposia on Quantitative Biology XVI, 1951). *New Phytologist* 52: 318–320.

Whitehouse, H.L.K. (1954a). *New concepts in flowering-plant taxonomy* by J. Heslop-Harrison (1953). *Journal of Ecology* 42: 563.

Whitehouse, H.L.K. (1954b). *Evolution*, ed. by J.F. Danielli & R. Brown (1953). *Journal of Ecology* 42: 564–565.

Whitehouse, H.L.K. (1955). *Viruses* (Cold Spring Harbor Symposia on Quantitative Biology XVIII, 1953). *New Phytologist* 54: 103–105.

Whitehouse, H.L.K. (1956a). *The genus Nicotiana*, by T.H. Goodspeed (1954). *Heredity* 10: 199 (1956).

Whitehouse, H.L.K. (1956b). *British mosses and liverworts*, by E.V. Watson (1955). *Journal of Ecology* 44: 259–260.

Whitehouse, H.L.K. (1957). *Genetic studies with bacteria*, by M. Demerec *et al.* (1956). *New Phytologist* 56: 267–268.

Whitehouse, H.L.K. (1958a). *Genetic mechanisms: structure and function* (Cold Spring Harbor Symposia on Quantitative Biology XXI, 1956). *New Phytologist* 57: 141–143.

Whitehouse, H.L.K. (1958b). *Advances in genetics, Volume IX*, ed. by M. Demerec (1958). *New Phytologist* 57: 406–407.

Whitehouse, H.L.K. (1959). *Cytology and genetics*, by C.P. Swainson (1958). *New Phytologist* 58: 245–246.

Whitehouse, H.L.K. (1960). *Radiation biology of Vicia faba in relation to the general problem*, by J. Read (1959). *British Medical Journal* 2 (5215): 1790.

Whitehouse, H.L.K. (1964a). *Fungal genetics*, by J. R. S. Fincham & P. R. Day (1963). *Transactions of the British Mycological Society* 47: 147–148.

Whitehouse, H.L.K. (1964b). *The architecture of the germplasm*, by V. Grant (1964). *Nature* 204: 978.

Whitehouse, H.L.K. (1964c). *Chromosome marker*, by K.R. Lewis & B. John (1963). *Science Progress* 52: 335.

Whitehouse, H.L.K. (1966a). *Fungal genetics*, ed. 2, by J. R. S. Fincham & P. R. Day (1965). *Transactions of the British Mycological Society* 49: 176.

Whitehouse, H.L.K. (1966b). *Experiments in plant hybridization*, by Gregor Mendel, edited by J.H. Bennett (1965). *Institute of Biology Journal* 13: 111.

Whitehouse, H.L.K. (1966c). *A short history of genetics*, by L.C. Dunn (1965). *Institute of Biology Journal* 13: 111–112.

Whitehouse, H.L.K. (1967a). *The meiotic system*, ed. by B. John & K.R. Lewis (1965). *Science Progress* 55: 328–330.

Whitehouse, H.L.K. (1967b). *Incompatibility in fungi*, ed. by K. Esser & J.R. Raper (1965). *Heredity* 22: 152–153.

Whitehouse, H.L.K. (1968). *Replication and recombination of genetic material*, ed. by W.J. Peacock & R.B. Brook (1968). *Cytogenetics* (original not seen; volume and page number needed.)

Whitehouse, H.L.K. (1969a). *Genetics and developmental biology*, ed. by H.J. Teas (1969). *Nature* 224: 517.

Whitehouse, H.L.K. (1969b). *Genetics of fungi*, by K. Esser & R. Kuenen, translated by K. Steiner (1967). *Heredity* 24: 504–505.

Whitehouse, H.L.K. (1975). *Mechanisms of genetic recombination*, by V.V. Kushev, translated by B. Haigh (1974). *Heredity* 35: 291–293.

Whitehouse, H.L.K. (1978a). *Incompatibility in Angiosperms*, by D. de Nettancourt (1977). *Journal of Experimental Botany* 29: 799–801.

Whitehouse, H.L.K. (1978b). *A discussion on the meiotic process* (Philosophical Transactions of the Royal Society 277: 184–376, 1977). *Heredity* 40: 467–469.

Whitehouse, H.L.K. (1980). *Genetic recombination: thinking about it in phage and fungi*, by F.W. Stahl (1979). *Nature* 284: 702–703.

Whitehouse, H.L.K. (1981). *Bryophyte systematics*, ed. by G.C.S. Clarke & J.G. Duckett (1979). *Journal of Bryology* 11: 369–371.

Whitehouse, H.L.K. (1982). *Distribution of bryophytes in the British Isles. A census catalogue of their occurrence in vice-counties*, by M.F.V. Corley & M.O. Hill (1981). *Journal of Bryology* 12: 306–307.

Whitehouse, H.L.K. (1984). *Genetics*, by J.R.S. Fincham (1983). *Heredity* 52: 309–310.

Whitehouse, H.L.K. (1985a). *New manual of bryology, volume. 1*, ed. by R.M. Schuster (1983). *Journal of Bryology* 13: 438–439.

Whitehouse, H.L.K. (1985b). *Genetic recombination*, ed. by J.H. Wilson (1985). *Nature* 317: 118.

Whitehouse, H.L.K. (1985c). *The Cambridge encyclopedia of life sciences*, ed. by A. Friday & D.S. Ingram (1985). *BioEssays* 3: 237–238.

Whitehouse, H.L.K. (1986). *Recombination at the DNA level* (Cold Spring Harbor Symposia on Quantitative Biology 49, 1984). *Heredity* 56: 285–287.

Whitehouse, H.L.K. (1987). *Wallchart: mosses and their habitats* (1986). *Journal of Bryology* 14: 797.

Whitehouse, H.L.K. (1998). *Plant variation and evolution*, ed. 3, by D. Briggs & S.M. Walters (1997). *Nature in Cambridgeshire* 40: 76–77.
