

Herbarium update (2002)

When Harrison documented the present state of the BBS herbarium (BBSUK) in 1980, there were c. 28,000 packets. The numbers of both mosses and hepatics added since then have been published in the Bulletin in the [BBSUK at NMW] Curator's annual report.

Year	Mosses	Hepatics	Total
1981	216	81	297
1982	216	123	339
1983	185	68	253
1984	185	89 (*1)	274
1985	180	55	235
1986	138	40	178
1987	192	82	274
1988	234	87	321
1989	211	102	313
1990	135	53	188
1991	126	57	183
1992	91	35	126
1993	126	42	168
1994	143	42	185
1995	149	-	149
1996	83	72	155
1997	-	-	-
1998	87	-	87
1999	244	106	350
2000	457	115	572
2001	309	94	403
2002	-	-	-
Total since 1980	3487	1343	4830

(*1) 2430 duplicates of hepatic VCRs were added from the C.P. Castell herbarium and reincorporated into the original packets.
