Rare, notable and other taxa not included overleaf

BRC no.	Name	Locality and precise date (if not given above)	Habitat	Other info (e.g. m, f, det., population size)

Nomenclature follows Hill et al. (2008), *A check-list and census catalogue of British and Irish mosses. Updated 2008*. With additional updates.

* denotes an aggregate species; names of subspecies and varieties are underlined. Mark fruiting taxa by adding 'f' after the name and taxa which have been checked microscopically by adding 'm'

The information on this card, including name(s) of recorders and experts, is contributed to the BBS or BRC on the understanding that the data will be entered into a computerised database and may be passed to third parties for use in nature conservation, research, education and public information. The information remains the property of the recorder or the recorder's employer.
